

In the specification:

Please replace the title with the following re-written text:

PEPTIDES CAPABLE OF BINDING TO MHC MOLECULES, CELLS
PRESENTING SUCH PEPTIDES, AND PHARMACEUTICAL COMPOSITIONS
COMPRISING SUCH PEPTIDES AND/OR CELLS

Please replace the abstract with the following re-written text:

The present invention is of: (i) peptides which originate from a particular cell type and which are capable of binding to MHC molecules of particular haplotypes; (ii) pharmaceutical compositions comprising such peptides; (iii) cells presenting such peptides; and (iv) pharmaceutical compositions comprising such cells.
